

FROST SCIENCE OCEAN GALLERY

FLOOR PLAN

Please note actual room layout may vary

The most high-tech venue for events

Let your creativity and imagination roam free in this vast and flexible space that welcomes guests as they descend on a sweeping ramp from The Deep level of the Aquarium. Designed with built-in 4K screens and speakers, an interactive LED dance floor, and stage, the Ocean Gallery is ideal for entertaining with a DJ or live performances. Utilizing our impressive lighting system, you can change the hue and shade of the walls and the environment around you to match the look and feel of your corporate brand or the mood of the event taking place. The massive wall-mounted LED screen and selection of 4K displays throughout the venue can be programmed with your media - whether it's a corporate presentation, product launch, or live feeds from the stage. Come dance the night away with us!
