

FROST SCIENCE THE DEEP

FLOOR PLAN

Please note actual room layout may vary

Home of the Gulf Stream Exhibit Oculus

For the most awe-inspiring "wow" factor, guests can marvel at the bottom of our 500,000-gallon Gulf Stream Aquarium exhibit to view life beneath the sea through the stunning 31-foot-wide Oculus window. Swimming sharks and schools of fish can be the backdrop for wedding ceremonies, lectures, or for a variety of intimate events. An exciting spot for selfies and group pictures, this space will be the highlight of your event.

To complete this immersive experience, you can add the connected Ocean Gallery to your rental to host dinners or dance parties with our LED dance floor and built-in screens.
