

FROST SCIENCE VISTA

FLOOR PLAN

Please note actual room layout may vary

Our most popular event space!

The Vista level of the museum's Aquarium is a 8,200 square foot open-air space designed to impress your attendees with mesmerizing views of Biscayne Bay, the vibrant Miami skyline, and the greenery of Maurice A. Ferré Park just below. The top deck of the Aquarium puts you at the surface of key South Florida ecosystems, including a stingray touch pool, aviary, an Everglades habitat, and more, allowing curious attendees to enjoy unique and memorable experiences. For a dynamic multi-level event, The Vista space flows naturally into other event spaces in the Aquarium, including The Dive, The Deep, and the ground floor Ocean Gallery.
